

# **Facility Management Standard**

*for facilities, infrastructure, & environment*

**Standards Working Group Meeting**

**CADD/GIS Technology Center**

**April 28, 2004**

# Facility Management Standard (FMSFIE)

- **Facility Management Standard** for facilities, infrastructure, & environment
- **Acronym - FMSFIE**
- **CADD/GIS Technology Center Project No. 96.015**

- **Website -** <http://tsc.wes.army.mil/products/tssds-tsfmts/fms/fmsprods.asp>

# 96.015 – Facility Management Standard (FMSFIE)

- Develop Transactional Data Content Standard to support life cycle Facility Management (FM) functions at Military Installations and USACE Civil Works Projects.
  - Facilitate compliance with legal reporting requirements.
- Improve efficiency and lower costs associated with collection, management, analysis, and reporting of FM data.
- Called Facility Management Standard for facilities, infrastructure, & environment (FMSFIE).
- Provide Non-Proprietary Data Content Standard to Facilitate Sharing of FM Data.

FMSFIE Website -

<http://tsc.wes.army.mil/products/tssds-tsfmts/fms/fmsprods.asp>

# 96.015 – Facility Management Standard (FMSFIE)

## Transactional –

- Communicative actions or activities, involving multiple parties or things that reciprocally affect each other in a near real time setting that is based on life cycle events.
- Real Time, Temporal Data.

# Facility Management Standard (FMSFIE)

## Coordination:

- FM Focus Group
- Patuxent River Naval Air Station (PAX)
- Army Integrated Facilities System (IFS)
- Air Force Interim Work Information Management System (IWIMS)
- Air Force Automated Civil Engineer System (ACES)
- Internet Navy Facility Assets Data Store (NFADS).
- USACE Facilities and Maintenance System (FEM)
- OSD Real Property Enterprise System (RPES)
- CADD/GIS Center SDSFIE & A/E/C CADD

- Defense Information Systems Agency (DISA)

# 96.015 – Facility Management Standard (FMSFIE)

## **FMSFIE Development Components:**

- Component 1 – Prepare Technical Content/Guidance
- Component 2 – Develop Software Tools
- Component 3 – FMSFIE Meetings
- Component 4 – Develop Transactional Data Models
- Component 5 – Maintain Federal Real Property Management (RPM) Web Site

# **Facility Management Standard (FMSFIE)**

## **FMSFIE Development**

# **FMSFIE Data Content Standard - Development Steps**

**Step 1: Develop/Update Strategic Plan**

**Step 2: Develop Conceptual Data Model**

**Step 3: Develop/Update Naming  
Conventions & Data (Information)  
Model Hierarchy**

**Step 4: Identify Priority Areas, and  
Underlying Defined Focus Areas**

- Example:
  - Priority Area – Asset Management with emphasis on Building Management
  - Focus Area - Asset Set, Facility Class, Building Sub-Class, Architectural Family

# FMSFIE Data Content Standard - Development Steps

## **Step 5: Develop/Update Data Models for each Defined Focus Area**

- Logical Models – Developed 1<sup>st</sup> for each Focus Area
- Physical Models – Define Detailed Table/Attribute Structure for importing into FMSFIE Library.

## **Step 6: Develop/Update FMSFIE Library**

- Maintained in Microsoft Access Database.

## **Step 7: Develop/Update Software Tools to Facilitate Use**

- Browser
- Database Builder

## **Step 8: Develop/Update Written Guidance to Facilitate Use**

# Facility Management Standard (FMSFIE)

## FMSFIE Strategic Plan (FMSP) –

- Provides goals and objectives for development of FMSFIE.
- Provides plan for migrating FMSFIE to a transactional data model.
  - FMSFIE initially developed as subset of SDSFIE.
- Initial Plan Developed in 2000. Updated periodically, as required.

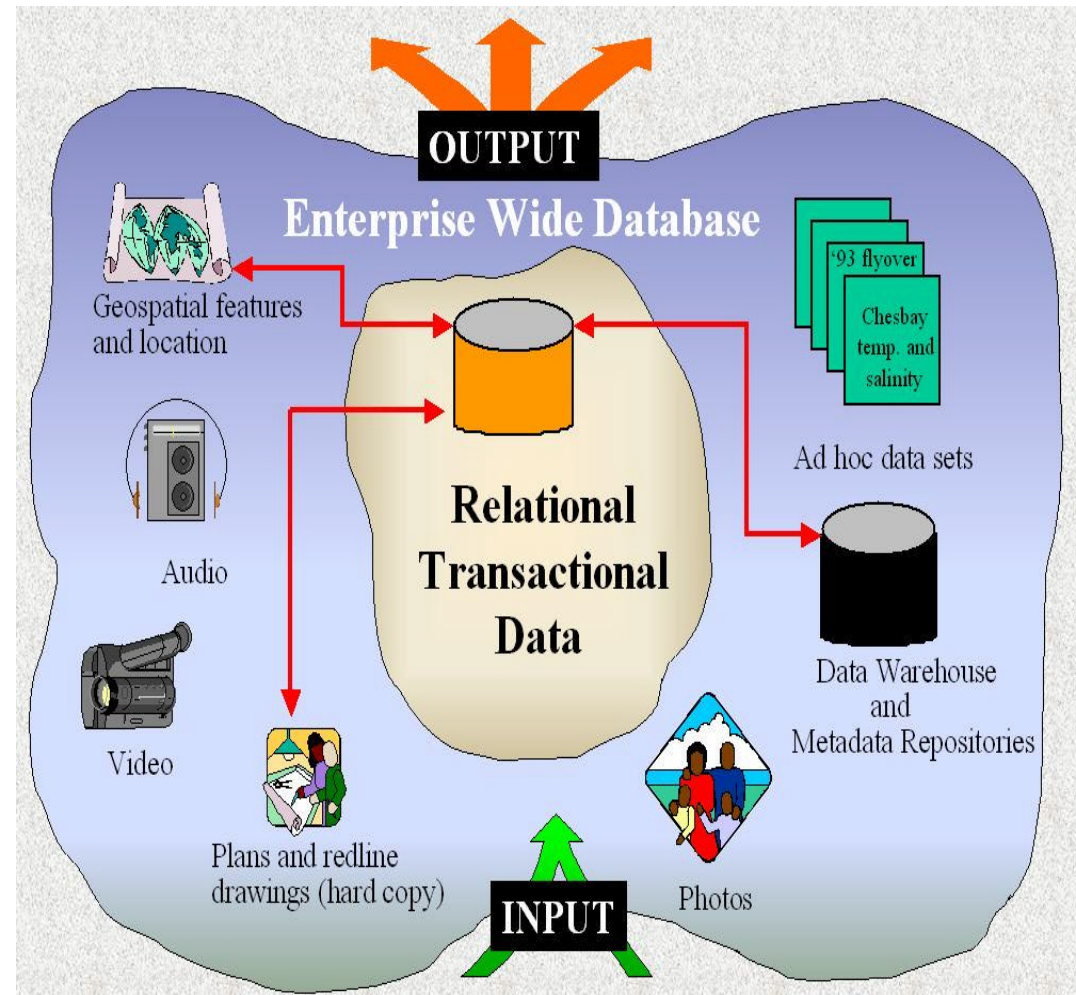

- Updated at October 2003 FMSFIE Working Meeting.

# Facility Management Standard (FMSFIE)

## Transactional FMSFIE –

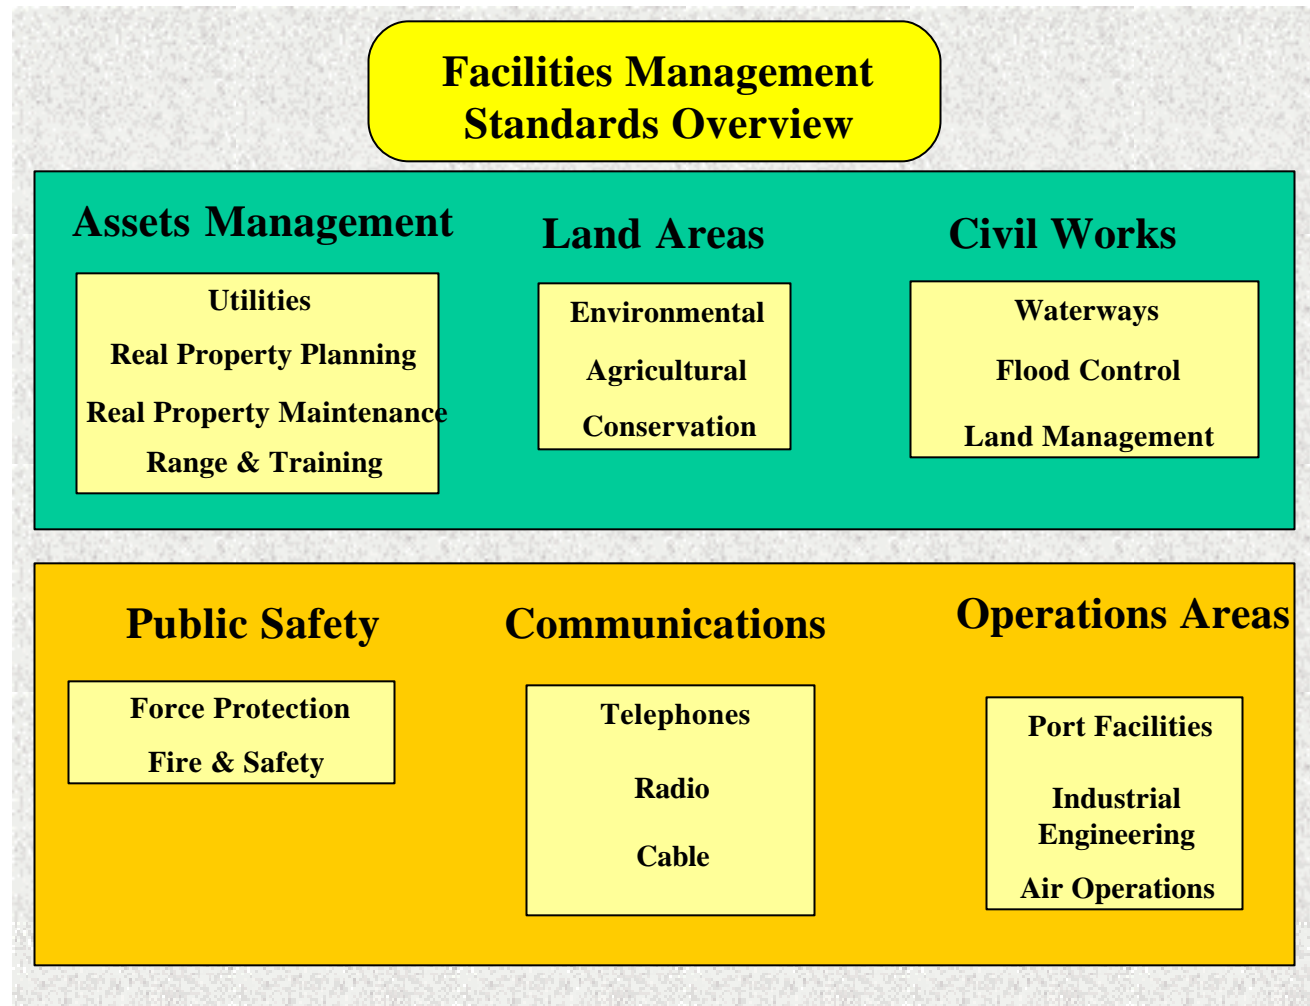

- Will be designed for management of life-cycle FM data.
- Will be designed to share data (be integrated) with both GIS (the SDSFIE) & CADD (A/E/C CADD Standards) technology.
- Will be designed for implementation on an enterprise (i.e., installation wide) relational database.

# Facility Management Standard (FMSFIE) – Broad Focus Areas for “Transactional” Data Model Development

Broad **Focus areas** This is within the Facilities, Infrastructure and Environment Business Plan for the Center

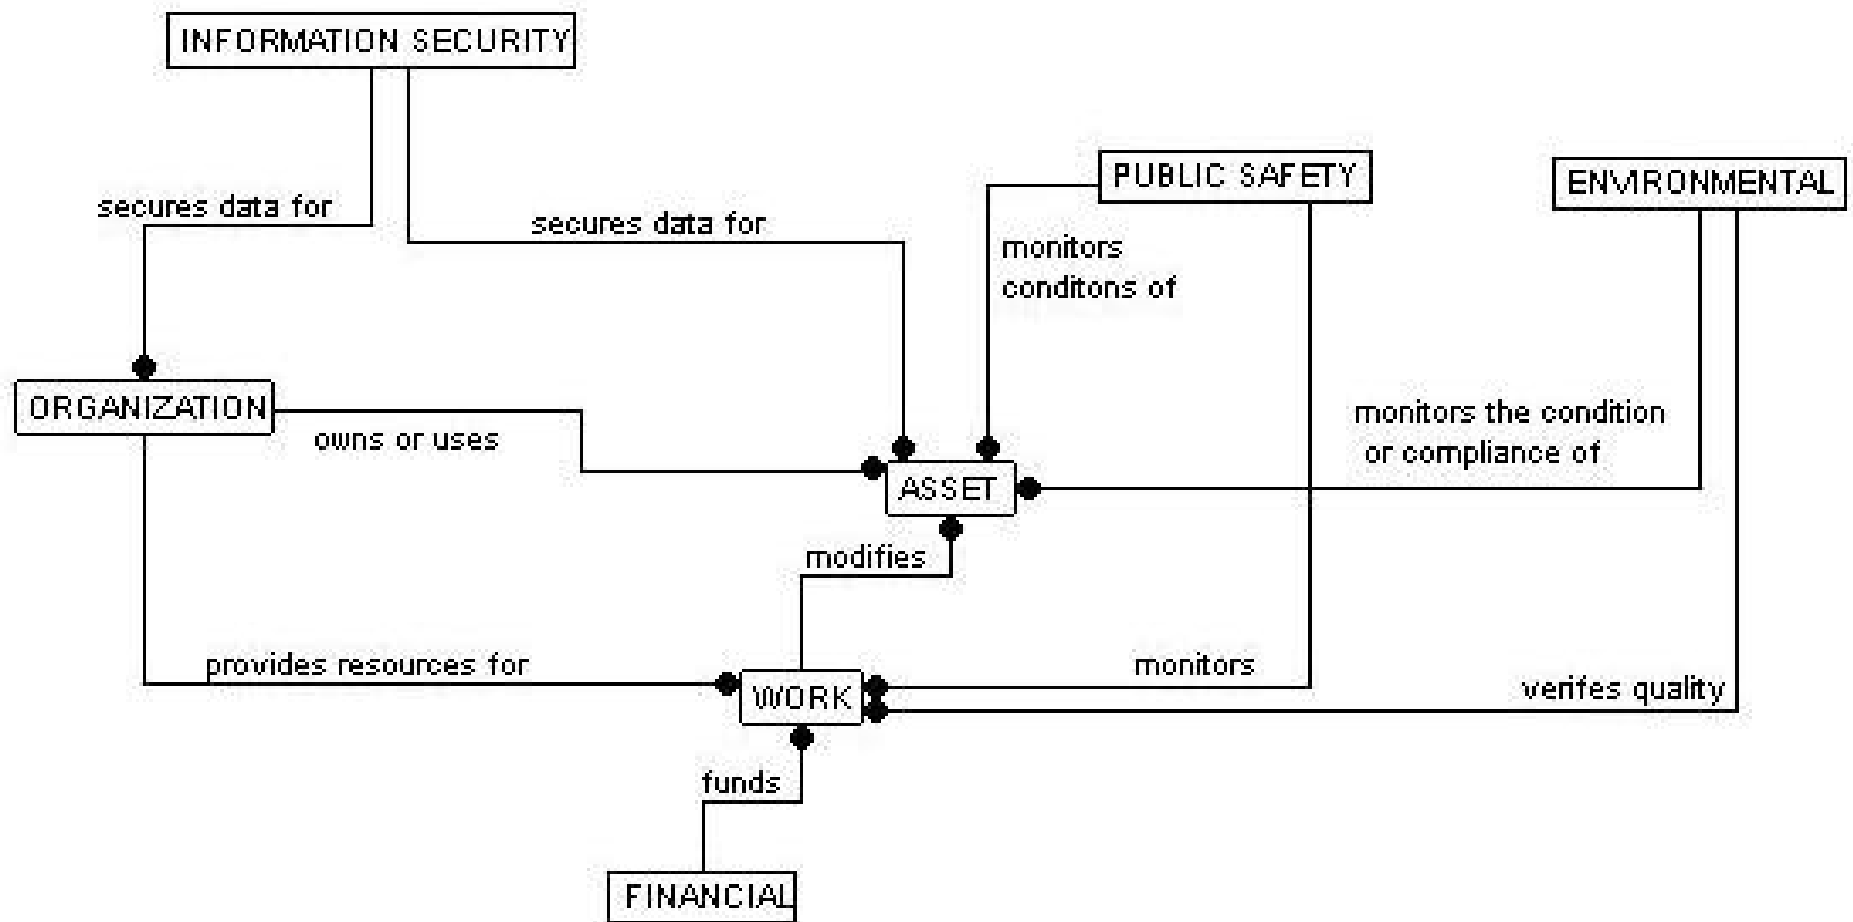

Work with the Broad **Associated areas** as the need to support the Broad **Focus area** development.

# **FMSFIE Design Considerations**

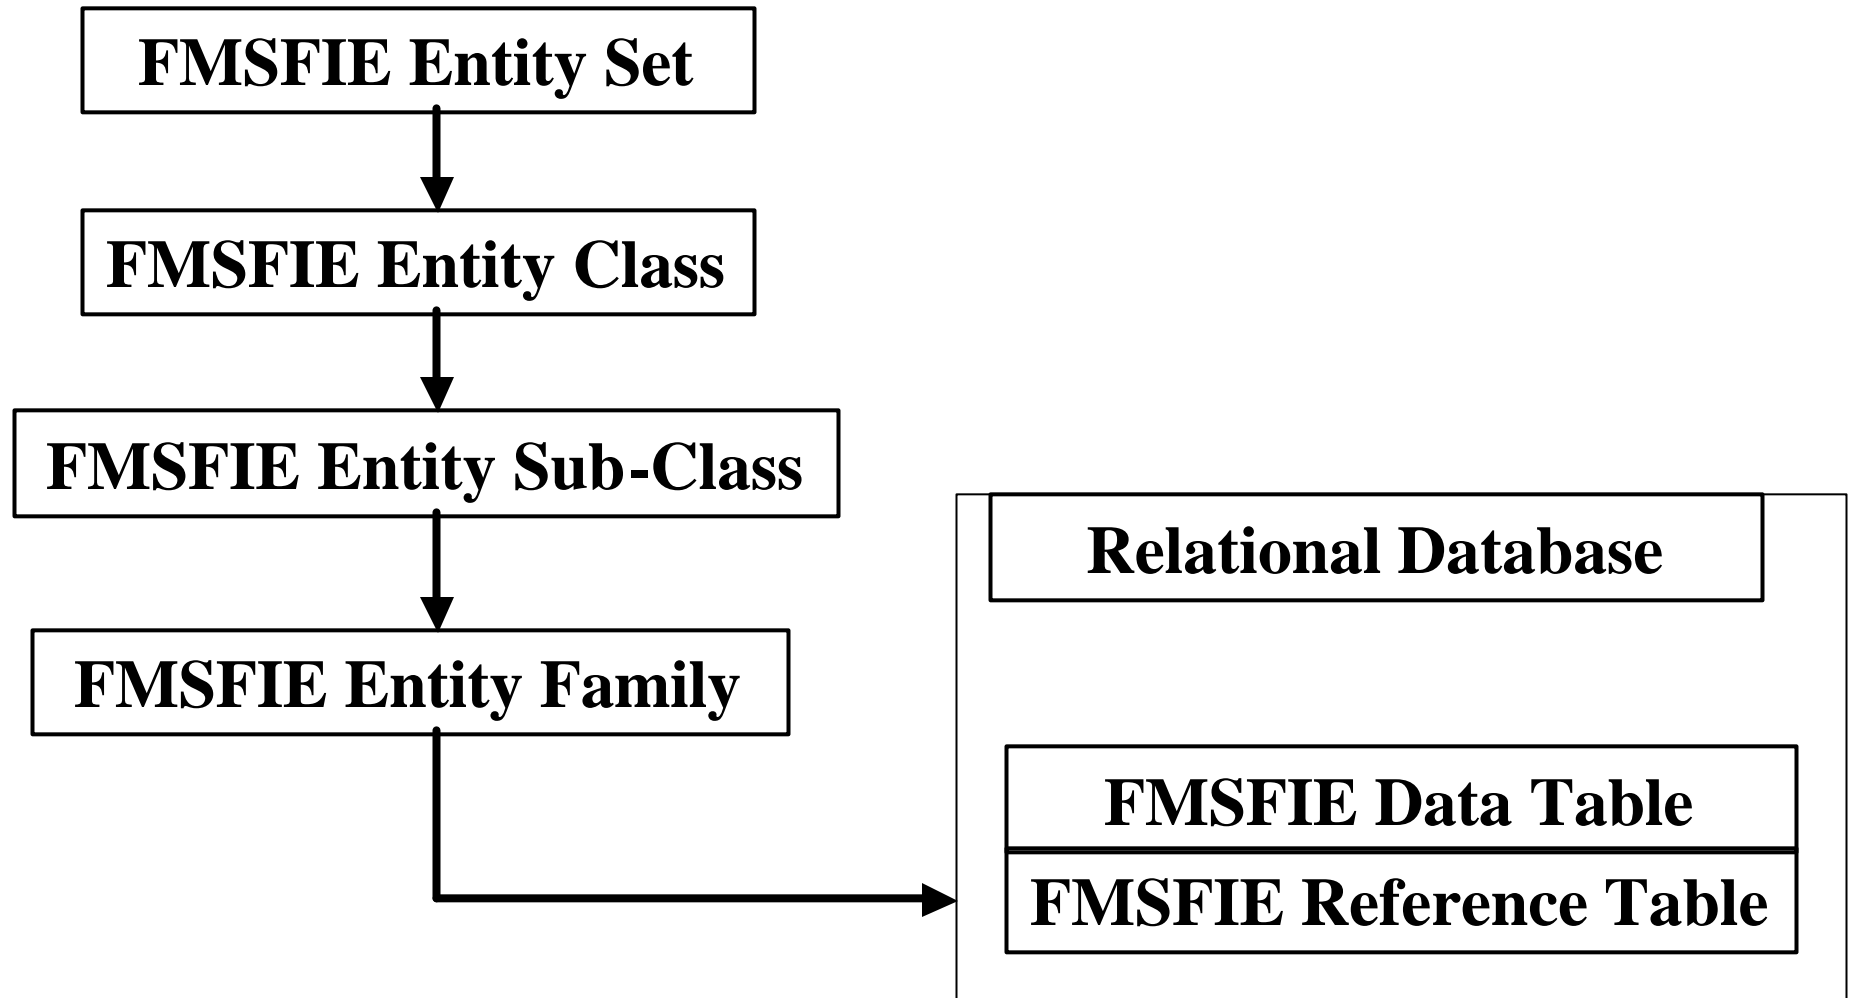

- **Compatible with Commercially Available Relational Database Management System (RDMS) Software.**
- **Compatible with SDSFIE & A/E/C CADD Standards.**
- **Compatible with Commercially Available CADD & GIS Software.**
- **Compatible with Microsoft Windows Operating Systems.**
  - Windows 2000 & XL
- **Define Data Model to Support Federal FM Legal Reporting Requirements.**
- **Support DISA and ISO Naming Conventions.**
- **Support Transactional Data Model & Schema.**
- **Provide User-Friendly Naming Conventions.**
  - One Table Name & Attribute Field Name.
  - Table Names & Attribute Field Names are Meaningful to User.
  - Support Current & Future RDMS (i.e., DOS is not supported).

# FMSFIE Conceptual Data Model

# FMSFIE Data Model Hierarchy

# FMSFIE Data Model Hierarchy

## Definitions

- **Entity Set:** Broad grouping of Real Property Management responsibilities.
- **Entity Class:** Sub-Grouping of an Entity Set providing grouping of similar real property classifications based upon legal reporting requirements.
- **Entity Sub-Class:** Sub-Grouping of an Entity Set based upon similar life-cycle event and temporal real property information.
- **Entity Family:** A functional sub-group of an Entity Sub-Class corresponding to different business disciplines, or different perspectives in the way data is structured below the Entity Sub-Class.

# FMSFIE Relational Database - Table Definitions

- **Data Table:** Relational database table comprising a grouping of similar records.
  - Also called Attribute table.
  - Database table used by Users for data entry.
- **Reference Table:** Relational database table containing a listing of valid, permissible, or reference values.
  - Also called Domain and Lookup Values.
  - Incorporate SDSFIE Domain Values, where applicable.

# **Facility Management Standard (FMSFIE)**

## **Transactional FMSFIE –**

- **Will include seven Entity Sets:**
  - Asset Management
  - Work Management
  - Environmental Management
  - Organization Management
  - Public Safety Management
  - Information Security Management
  - Financial Management
- **Guidelines for development defined by FM Focus Group.**
  - Compliant with DoD (DISA) & International Standards Organization (ISO) requirements.

# FMSFIE Entity Set Definitions

**Asset Management:** Items comprising an inventory of federal real property and other related entities based on classification and need to support organizational requirements. Includes:

- (1) Tangible physical items comprising the inventory of federal real property that can be referenced by location;
- (2) Non-tangible items that cannot always be defined by a location, or do not exist as an inventory item in the real property management inventory.

**Work Management:** Change management that consists of planning, programming, acquisition, operations, maintenance, revitalization, evaluation, and disposal actions affecting real property (assets) and other related entities.

# FMSFIE Entity Set Definitions

**Financial Management:** Planning, programming, and execution of appropriations associated with real property management.

**Environmental Management:** Defines the stewardship responsibilities as they relate to the environmental management practices.

**Public Safety Management:** Issues related to the protection of personnel and property.

**Organization Management:** A structured grouping of personnel and the roles they perform as it relates to an integrated work environment.

**Information Security Management:** Controlled access to data and information as it relates to the roles of personnel.

# Initial FMSFIE Development Priorities

- **1<sup>st</sup> Priority** - Support basic Asset Management data requirements, with an emphasis on Building Management (Release 2.30).
- **2<sup>nd</sup> Priority** – Utility & Environmental Management.

# FMSFIE Asset Management Entity Set - Classes

## Asset Management - Set

**Interior Design**

# 96.015 – Facility Management Standard (FMSFIE)

- Published first transactional FMSFIE release (FMSFIE Release 2.30) in Oct. 03.
- Revised and expanded FMSFIE Website.
- Federal Real Property Management (RPM) Database and Website expanded to include 1,173 Federal Laws and Policy Documents.
- RPM Website Law Traceability Matrix Expanded for all SDSFIE and FMSFIE Sets & Classes.
- Prepared “FMSFIE Naming Conventions & Structure Specification” white paper.
- Developed first release of FMSFIE Browser Software tool.

PI – Bobby Carpenter

**FY03 Major  
Accomplishments**

# 96.015 – Facility Management Standard (FMSFIE)

## FMSFIE Release 2.30 (October 2003):

- Supports basic Federal Legal Reporting requirements for Asset Management.
- FMSFIE Browser provides viewing and printing capability of FMSFIE data dictionary.
- Data Model:
  - Entity Sets – 7
  - Entity Classes – 39
  - Entity Subclasses – 124
  - Entity Families – 32
  - Database Tables (Adopted) – 103
  - Table Fields (Attributes) (Adopted) – 470
  - Reference (Domain) Values – 5,033
- Distributed via Internet download and CD-ROM.

FMSFIE Website - <http://tsc.wes.army.mil/products/tssds-tsfms/fms/fmsprods.asp>

# 96.015 – Facility Management Standard (FMSFIE)

## Fiscal Year 2004 Priorities:

1. Publish 2 Updates of FMSFIE Data Library and Software Toolbox:
  - FMSFIE Release 2.31 – March 2004
  - FMSFIE Release 2.40 – October 2004
2. Expand Transactional Data Models:
  - Asset Management – Buildings & Utilities
  - Environmental Management - Compliance & Sampling
3. Expand RPM Website and Content.
4. Develop Initial FMSFIE Assets Implementation Guidance.
5. Begin Migration of FMSFIE Data Models from IDEF to UML format.
6. Investigate Technologies for Future Implementation Tool Development – Web Based and/or Computer Desktop.

PI – Bobby Carpenter

# 96.015 – Facility Management Standard (FMSFIE)

## **FMSFIE Release 2.31 (March 2004):**

- Includes Expanded Support for Asset Management.
- Includes Initial Support for Environmental Management
- FMSFIE Browser provides viewing and printing capability of FMSFIE data dictionary.
- Data Model:
  - Entity Sets – 7
  - Entity Classes – 38
  - Entity Subclasses – 121
  - Entity Families – 32
  - Database Tables (Adopted) – 248
  - Table Fields (Attributes) (Adopted) – 1,282
  - Reference (Domain) Values – 5,033
- Distributed via Internet download and CD-ROM.

FMSFIE Website - <http://tsc.wes.army.mil/products/tssds-tsfmts/fms/fmsprods.asp>

# 96.015 – Facility Management Standard (FMSFIE)

## Component 1 (FY04) – Prepare Technical Content & Guidance:

### C. FMSFIE Guidance -

- FM Strategic Plan –
- Naming Convention and Structure –
- Project Development Overview –
- Initial FMSFIE Implementation Guide -
  - Address how FMSFIE will integrate with SDSFIE & A/E/C CADD Standard
  - Demonstrate how to link FMSFIE data tables to CADD Drawings.
  - Discuss how to use FMSFIE for FM.

# 96.015 – Facility Management Standard (FMSFIE)

## Component 1 (FY04) – Prepare Technical Content & Guidance:

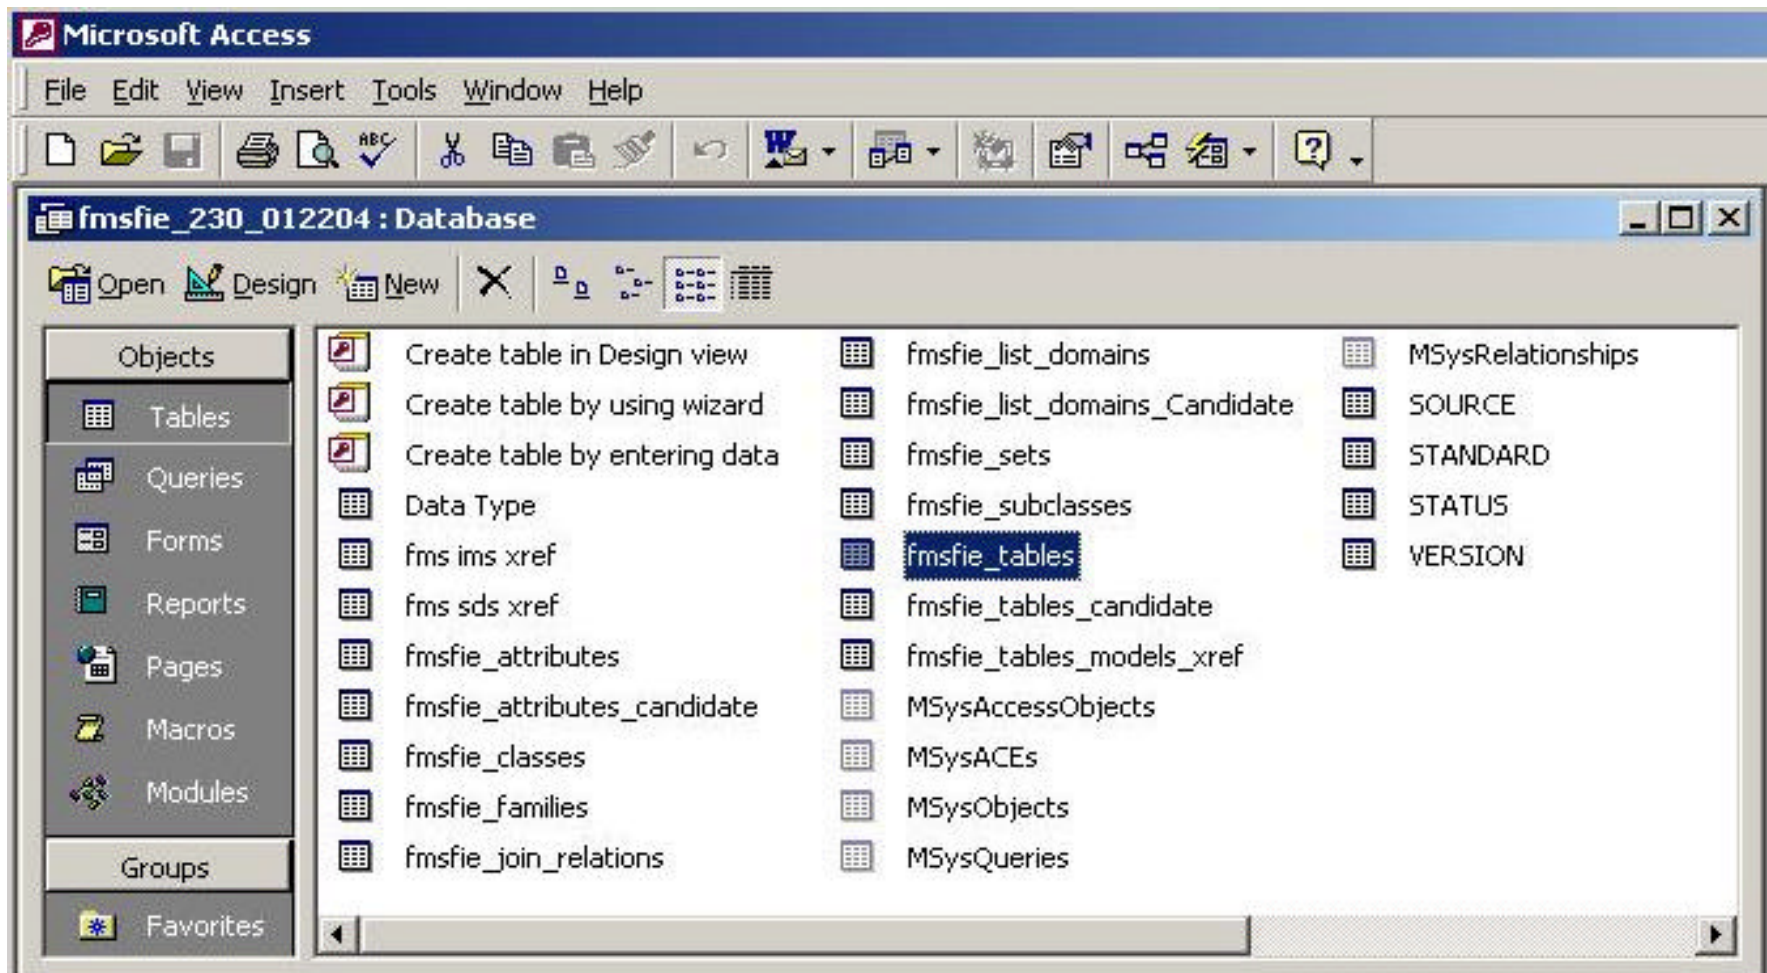

### D. FMSFIE Data Library –

- **Maintain Data Library -**
  - Microsoft Access Database.
  - Contains Database Tables Comprising FMSFIE Library.
- **Import Physical Data Models into Data Library -**
- **Research & Expand Content –**
  - Tables, Table Fields, Definitions, & Reference Values.
- **Perform QA/QC Testing of Library -**
- **Two Updates Scheduled to be Published in FY04 -**
  - Release 2.31 - March 2004
  - Release 2.40 - October 2004

# 96.015 – Facility Management Standard (FMSFIE)

## FMSFIE Data Library

# **FMSFIE Data Content Standard – Library Update Process**

- 1. New Data Elements added to FMSFIE Library are flagged as “Candidate”.**
  - Data Elements – Tables, Attributes, & Domain Values.
  - Data Elements Incorporated in a Previous Release are Flagged as “Adopted”.
  - Data Elements Changed from a Previous Release are Flagged as “Modified”.
- 2. Listing of “Candidate” Data Elements is Distributed for Review Prior to Each Scheduled Release.**
  - Exported from Library to Excel Spreadsheet.
- 3. “Candidate” Data Elements are Reviewed/Discussed at FM Focus Group Meeting.**
- 4. FMSFIE Release is Completed.**
  - Data Elements are Flagged as either “Adopted” or “Modified”, as appropriate.
  - Data Elements in Logical Data Models still under development are maintained in separate tables.

# 96.015 – Facility Management Standard (FMSFIE)

## Component 2 (FY04) – Develop Software Tools:

### A. FMSFIE Browser -

- **Provides Software Tool for Viewing and Printing of FMSFIE Library -**
- **Updated Annually to –**
  - Maintain Compatibility with Microsoft Operating Systems
  - Incorporate Customer Comments
  - Improve Graphical User Interface (GUI)
- **Currently Available as Computer Desktop Software Tool –**
  - Visual Basic
  - Tested for Operation with Windows 2000 and XP Operating Systems
- **One Update of Desktop Browser Scheduled in FY04 –**
  - Release 2.40 - October 2004

# FMSFIE Release 2.30 Browser

**FMSFIE Transactional Facility Management Standard Browser/Printer**

Release 2.300 Physical Model \\MACK\HPLJ Room 1224

# 96.015 – Facility Management Standard (FMSFIE)

## Component 2 (FY04) – Develop Software Tools:

### B. FMSFIE Implementation Tools –

- **Investigate Technologies for Future Development –**
  - Web Based (e.g., XML Web Based technology)
  - Computer Desktop (e.g., Visual Basic, similar to SDSFIE tools (SQL Generator & Access Builder)
  - Schedule dependent upon availability of FY04 Funds.
- **Develop Prototype Implementation Tool –**
  - Web Based or Computer Desktop
  - Schedule dependent upon availability of FY04 Funds.
- **Perform QA/QC Testing of Software Tools –**
  - Test Software Tools for Defects
  - Test Operation with Windows 2000 & XP Operating Systems

# 96.015 – Facility Management Standard (FMSFIE)

## Component 4 (FY04) – Develop FMSFIE Data Models:

### A. Asset Management -

- **Facility Class, Building Subclass Focus –**
  - FY03 - Architectural & Facility Baseline Models Completed (Release 2.30)
  - October 2003 - Structural & Interior Design Baseline Models Completed
  - January 2004 – Mechanical, Electrical, & Plumbing Baseline Models Completed
  - October 2004 - Security & Telecommunications Baseline Models - Schedule dependent upon availability of FY04 funds.

# 96.015 – Facility Management Standard (FMSFIE)

## Component 4 (FY04) – Develop FMSFIE Data Models:

### A. Asset Management (Continued) -

- Facility Class, Utilities Subclass Focus –

- October 2004 - Water, Wastewater, Electrical, Fuel, & Heating Baseline Models – Schedule dependent upon availability of FY04 funds.

# 96.015 – Facility Management Standard (FMSFIE)

## Component 4 (FY04) – Develop FMSFIE Data Models:

### B. Environmental Management -

- **Environmental Compliance Class Focus –**

- October 2003 - Environmental Checklist (NEPA Compliance Decision Tree) Baseline Model Completed
- December 2003 – Environmental Compliance Baseline Model Completed

- **Environmental Sampling Focus –**

- January 2004 – Environmental Sampling Baseline Model Completed

# 96.015 – Facility Management Standard (FMSFIE)

## Component 4 (FY04) – Develop FMSFIE Data Models:

### C. Migrate IDEF Data Models to UML -

- **UML – Unified Modeling Language**

- Object Oriented Data Modeling Language
- Microsoft Visio & IBM Rational Rose – Most common UML modeling software
- Has replaced IDEF in use and popularity

- **Priority for Migration –**

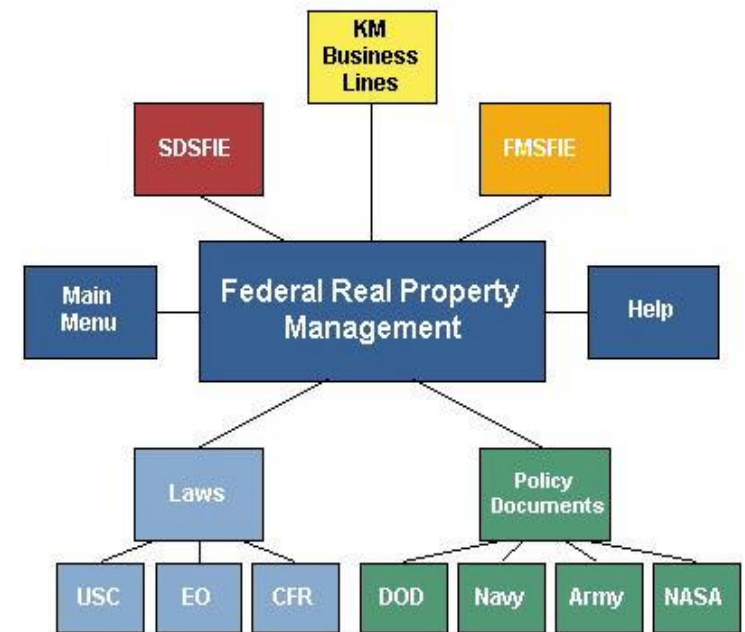

- October 2004 - Asset Management, Buildings - Architectural & Facility Baseline Models
- October 2004 - Environmental Management, Sampling Baseline Model -
- Asset Management, Buildings - Structural & Interior Design Baseline Models
- Asset Management, Buildings – Mechanical, Electrical, & Plumbing Baseline Models

# 96.015 – Facility Management Standard (FMSFIE)

## Component 5 – Real Property Management (RPM):

### Scope:

- Web Site to contain U.S. Codes and Executive Orders governing acquisition, maintenance, and disposal of Real Property holdings.
- Provide Traceability Matrix listing of Federal Legal Reporting Requirements Supported by FMSFIE and SDSFIE. Coverage expanded each Fiscal Year.
- Provide web-based FMSFIE Data Dictionary (Sets, Classes, Subclasses, Families, & Tables) with active link to FMSFIE Library (Microsoft Access Database).

- Web Site URL – <http://rpm.wes.army.mil/>

# **96.015 – Facility Management Standard (FMSFIE)**

## **Component 5 (FY04) – Maintain RPM Website:**

- **RPM Website – Federal Real Property Management Website –**
- **FY04 RPM Website Contract Support is Currently Awaiting Availability of FY04 Funds. Previous Contract has Expired.**
- **Projected FY04 Website Maintenance Priorities –**
  - Maintain Compatibility with Microsoft Operating Systems & Internet Browsers
  - Incorporate Customer Comments
  - Incorporate New Federal Regulations & Policies
  - Expand RPM Regulations to all FMSFIE Classes, Subclasses, Families, & Tables (Traceability Matrix completed in FY03 for FMSFIE Sets).
  - Provide Web-Based FMSFIE Data Dictionary (i.e., Sets, Classes, Subclasses, Families, Tables, & definitions) with active link to current FMSFIE Library (Microsoft Access Database).

# 96.015 – Facility Management Standard (FMSFIE)

## Federal Real Property Management Website: FMSFIE

FMSFIE Entity Set		
Entity Set	Entity Set Description	Entity Class Link
<a href="#">asset_management</a>	Items comprising an inventory of Federal real property and other related entities based on classification and need to support organizational requirements. Includes: (1) tangible physical items comprising the inventory of Federal real property that can be referenced by location; (2) non-tangible items that cannot always be defined by a location, or do not exist as an inventory item in the real property management inventory.	<a href="#">Class Link</a>

## Federal Real Property Management (RPM):

### Fiscal Year 2003 Content Status:

- Currently contains over 1,173 Federal Laws & Policy Documents
- Contains Traceability Matrix of Federal Legal Reporting Requirements supported by:
  - All SDSFIE Entity Sets (total of 26).
  - All SDSFIE Entity Classes (total of 169).
  - All FMSFIE Entity Sets (total of 7).
  - 33 FMSFIE Entity Classes.
